## COOLIDGE NOT A CANDIDATE

### ANNUAL PARLEY WARRIORS; ENVOYS WANT SHOWDOWN

### New Compromise on Cruisers Talked.

(Copyright, 1937, by The New York Times.)  
GENEVA, Switzerland, Aug. 2.—The annual session of the tripartite naval conference is still set for Thursday, if it takes place and if Ambassador Gibson, head of the American delegation, attempts the seemingly impossible task of obtaining a naval agreement acceptable to the United States.  
The delegates today were still busy negotiating new compromises, which they hope will be merely old plans repackaged. They gave it up after lunch and decided they might as well play "wait and see" until the next day.  
It is still evident, though, that the delegates—particularly a portion of the American one—are eager to adjournment of the conference at almost any cost.  
**New Proposal Mysterious.**  
It is not generally clear just what the new proposal is at one time. The Japanese and at another Japanese-American—because sometimes the official spokesmen said there were proposals and at others admitted they were not. It is evident that they were agreed upon by Allen Dulles, legal adviser of the American delegation, who thought they might lead to something being arranged. Thus they assumed a compromise character.  
Meanwhile the unconsulted American experts are viewing the situation with a skeptical eye. They believe that something is being sprung which will have the same effect on the treaty as did the Washington treaty.  
**Japan Submits Plan.**  
GENEVA, Switzerland, Aug. 2.—(AP)—"Just an idea," was the phrase which the Japanese statesmen used today when presenting to Ambassador Hugh S. Gibson, chief American representative, their compromise formula on the cruiser problem which would limit the tripartite naval conference with failure.  
Despite this new move, however, it was said in responsible quarters that the specter of failure should not be deemed definitely avoided.  
From the American standpoint at least, the Japanese plan to save the conference is said to appear after close study to include many attractive features worthy of being treated as a basis for negotiation.  
**Called to Washington.**  
Mr. Gibson called the text of the proposal to Washington, together with the Japanese plan, for the Japanese plan to save the conference is said to appear after close study to include many attractive features worthy of being treated as a basis for negotiation.

### FORBID WILDCAT FLYING AS FIFTH PLANE CRASHES

### Take Drastic Action; 8th Victim Dying.

(Picture on back page.)  
While the Cook county highway police for the first time were enforcing a drastic order preventing flying by unlicensed pilots or in unregistered planes another airplane crashed near Chicago inflicting probably fatal injuries on a student pilot.  
The latest victim is Frank McBrien, 23, of Sycamore, Ill. He lost control of his machine while attempting to make a forced landing in a hay field near Elgin. It plunged nose down from a height of more than 100 feet. McBrien's arms, legs and several vertebrae were fractured and he also suffered internal injuries. It was stated that his chance for recovery was remote.  
**Five Crashes; Seven Deaths.**  
In the last ten days there have been five plane wrecks in the Chicago district and the death toll stands at seven. In only one of the crashes did the passengers escape with minor injuries.  
"Stop every airplane flight unless the pilot has a federal license and the plane is registered by the government," Sheriff Charles E. Graydon instructed Chief James L. Devereaux of the highway police.  
The action had been determined on by the county board after two inquiries into the deaths of pilots and passengers had been concluded. The highway police immediately were sent to all flying fields and they began enforcing the regulation.  
**Point to Need of Air Rules.**  
The McBrien accident, it was pointed out, emphasized the necessity for restrictions on unsafe flying. He was not a trained pilot, it was said, and his plane was not registered with the federal authorities. Apparently the engine had gone wrong and the pilot's want of skill prevented his making a safe landing.  
"It's accidents like this that we are attempting to prevent," said Col. Paul Henderson, president of the National Air Transport, who was appointed a special deputy coroner to conduct the inquiries into five of the seven deaths.  
"Unauthorized planes and pilots not only endanger the public, but are a hindrance to legitimate aviation." He pointed to the fact that dozens of flyers and heads of aviation concerns had given the county officials assurances of their full cooperation in the safety campaign against wildcat flying.  
**Experts Appear at Inquest.**  
One inquest in the county building had to do with the deaths of Carl Hawkins, pilot, and Irvin Hybel and Ray Westphal, passengers, in the first of a series of three fatal air accidents in the county. Col. Henderson had been impressed into service especially for this inquest and dozens of experts had been invited to appear and offer suggestions.  
Ralph G. Lockwood, supervising inspector of airplanes and airmen for the government, testified that the only way to prevent recurrence of this sort of accident was through the county having all unauthorized flying. Maj. Reed Landis, war ace, said the time has come when public officials should not be weak-kneed concerning air regulations. He said all conscientious flyers would assist the authorities.  
**Dual Control Discussed.**  
There was a discussion of the dual control airplane, which is likened to having an accelerator and a steering wheel in the rear seats of automobiles. It was developed that the government regulations require that any one wishing to take flying lessons is first required to undergo a physical examination. This provision has been totally ignored in Cook county, according to testimony.  
The jury, carefully chosen for this inquest, rendered a verdict containing strong recommendations for regulation of flying. Immediately following the verdict Col. Henderson conferred with Sheriff Graydon relative to carrying out the recommendations.  
"We'll arrest any one who attempts to make an illegal flight," Sheriff Graydon stated, "and if any one sues our answer will be that this step is necessary to save lives."  
**Attend Air Board Meeting.**  
The aviators then attended the meeting of the air committee of the county board, of which Lieut. Robert H. Gray, government inspector, Maj. Reed Landis, and Maj. Schroeder have been made members.  
W. A. Yackey, airplane designer, flyer and head of Checkerboard flying field, supplied the committee with corn follows.

### SOMETHING FOR THE POLITICAL INTERPRETERS TO THINK ABOUT

### MABEL NORMAND IS GRAVELY ILL; FEAR PNEUMONIA

(Picture on back page.)  
Hollywood, Cal., Aug. 2.—(Special.)—Mabel Normand is reported gravely ill in Santa Monica hospital. The actress was rushed to the hospital from Hollywood in an ambulance last night. Her illness is reported by Dr. George K. Dasey as being an extremely heavy cold, with conditions resembling influenza and pneumonia. The side pains, according to attaches at the hospital, are interpreted as "threats of pleurisy or pneumonia."  
Miss Normand was in the Santa Monica hospital for ten weeks last winter when she suffered from bronchial pneumonia. At one time she was reported dying. She recovered after Dr. Dasey tapped an abscess on her lungs. All visitors are denied access to the actress today.

### Queen Marie to Get \$125,000 a Year Pension

BY GEORGE SELDES.  
(Chicago Tribune Press Service.)  
BUCHAREST, Roumania, Aug. 2.—Dowager Queen Marie of Roumania was put on the Roumanian pay roll at \$125,000 a year by the national council at a special meeting today over which Premier Ion Bratianu presided. The king, Michael I., was granted \$110,000 a year. Smaller grants were made to other members of the family of the late King Ferdinand.  
This action of the council sets at rest Queen Marie's worries as to money matters. She had inherited the most of King Ferdinand's castles and retinues of servants and had a mere \$30,000 a year out of which to maintain them and buy herself clothes and bread.

### DICTIONARIES FAIL TO CLEAR UP PUZZLE OF PRESIDENTIAL 'CHOOSE'

Three leading dictionaries give the following definitions of "choose": "The word in President Coolidge's announcement which is puzzling the political world."  
THE CENTURY: "To select from two or more; to make a choice of in preference to another or others, or to something else; to prefer and decide; with an infinitive as an object (the President's statement had such an object); to prefer to have; to elect; to make a choice; to decide; to prefer; to desire; to wish."  
WEBSTER'S NEW INTERNATIONAL: "To make a choice of; to select; to take by way of preference from two or more objects offered; to elect; to decide something; from inclination or preference; to think proper; to please."  
THE STANDARDE: "To select as most desirable; to take by preference; to pick out; to elect; to make a selection or decision; to exercise the power of choice."

### TRAP 'BURGLARS' ON ROOF; POLICE CAPTURE 2 CATS

Sheffield avenue police received a hurry-up call early this morning from William Weeda, a watchman employed by the Merchants' Patrol service.  
"I've got a gang of burglars cornered on the roof of the Heller-Clark poultry storehouse at 1236 George street, Weeda declared excitedly.  
Several squads hurried to the scene and found Weeda and an assistant standing guard with rifles. With drawn revolvers, the police moved to the roof by means of a fire escape. They captured two cats whose attempts to get into the storehouse had caused so much noise that Weeda's attention was attracted.

### THE WEATHER

sun. 5:46; sunset, 8:06. Moon sets at 11:20 p. m. today. Jupiter is the morning star; Saturn and Venus are evening stars.

**TRIBUNE  
BAROMETER.**

## NEW YORK G. O. P. THINKS COOLIDGE CAN BE DRAFTED

### Butler Not Convinced He Is Eliminated.

New York, Aug. 2.—[Special].—Republican leaders here are inclined to believe that President Coolidge will consent to being drafted to run for President in 1928, despite his terse announcement today in Rapid City.

William M. Butler, chairman of the Republican national committee and President Coolidge's campaign manager in 1924, is not convinced that the announcement means Coolidge's elimination as a 1928 presidential possibility.

Butler Regrets Decision.

"I very deeply regret the announcement," he said, "but I am not convinced he will not run if nominated."

The President's announcement came after the close of the stock market, but caused surprise in Wall street. It had been supposed the President would defer a decision until after the next session of congress. Banking leaders said, however, that the announcement should not cause any important change in the business or financial condition of the country.

One prominent financier declared that it was not so much the individual that counted, as it was the principles for which he stood. Economy, he said, had been the outstanding feature of the Coolidge administration, and he was sure that the President's successor would carry on with this policy.

Mitchell Sees Public Demand.

C. E. Mitchell, president of the National City bank, in a signed statement, said:

"Throughout his career, President Coolidge has proved himself a servant of the people; he has sensed their will and has obeyed it. His personal choice, according to his statement, is not to run for another term. But what is the choice of the people in this regard? May not that be the controlling factor?"

### Find 5 Bodies in Plane Wrecked in Rainstorm

TOULOUSE, France, Aug. 2.—Flying in a blinding rainstorm from Toulouse to Morocco, a mail and passenger plane crashed on a hillside near Saint-Ander in the Pyrenees last night. Five mangled corpses, including the pilot, who was decapitated, a relief pilot, two mechanics and the wife of one of them were found in the wreckage today.

### Arrest Suspect in Killing of Burnham Roadhouse

Harry Brown, 44 years old, known to police as "Frisco Dutch," who has a long record as a burglar and robber, was arrested early this morning at 1125 Broadway and Clark street. He has been sought in connection with the murder of Frank Hitchcock, owner of an inn at Burnham, and was taken to the detective bureau for questioning.

### Swift Seeks to Replevin Paintings from Attorney

Edward F. Swift Jr., of the family of packers, yesterday filed an affidavit in the Circuit court to replevin \$5,000 worth of oil paintings and books from James H. Benjamin, an attorney, who was arrested last week on a charge of refusing to return the property. The lawyer's wife and the Werner Brothers Storage company are also named defendants.

Decorate With Duco

The nationally advertised Duco dries in a few hours—leaving a hard, smooth and brilliant surface—Duco is offered by Revell's in all colors favored for decorating fixtures at a very unusual cost.

Alexander H. Revell & Co.

## IF CONVENTION WANTS COOLIDGE HE'LL RUN, REED SMOOT THINKS

President Coolidge's statement caused various reactions among public men yesterday. Some of the statements follow:

Washington, D. C., Aug. 2.—[Special].—Senator Reed Smoot (Rep., Utah), who recently returned from a conference with the President in the Black Hills, said:

"If the Republican convention decides it wants him to run he will comply, but if it is left to his personal choice he'd prefer not to run. I do not see any other construction to be placed on it."

Boston, Mass., Aug. 2.—[Special].—Frank W. Stearns, Mr. Coolidge's closest friend, declined to make any statement. "I have nothing to say. I have not given any interview for 15 years," he said. Nevertheless, he appeared to be keenly interested in the statement.

Minneapolis, Minn., Aug. 2.—[Special].—Senator Thomas D. Schall of Minnesota, (Rep.), said: "I am surprised and sorry to hear it. I had expected Mr. Coolidge to be the Republican candidate in 1928, and feel he could be re-elected easily."

Boston, Mass., Aug. 2.—[Special].—Former Gov. Channing E. Cox, commenting on the Coolidge announcement, said:

"I know that President Coolidge speaks absolutely truly when he says that he does not choose to be a candidate in 1928, but the American people will choose to have him."

### Woman Waits in Auto as 2 Men Hold Up Drug Store

Two men held up the proprietor, clerk, and two customers in a drug store at 2264 North Clark street shortly after midnight. They took \$95 from George Elshorst, the proprietor, and about \$50 from the clerk, Jerry Travis. Fred Stump, 2920 Berteau avenue, and Norman Biels, 503 Grant place. Police were told that the robbers drove away in an automobile in which a woman was also a passenger.

### Tie Watchman in Billiard Hall; Rob Safe of \$1,683

Tying up the watchman in the Imperial Billiard hall at 312 South Clark street late last night, three men opened a safe and escaped with \$1,683. Winslow Sokolowski, the watchman, succeeded in freeing himself several hours later and notified the police and Joseph Amelawovich, 2743 Wisconsin avenue, Berwyn, the billiard hall owner.

### Pays His \$2.50 Debt with Interest After 27 Years

A debt of \$2.50 owed Cook county since 1900 was paid yesterday in a letter received by Sheriff Charles E. Graydon from J. J. Donohue, St. Louis attorney. The lawyer explained that he discovered the bill, for serving legal papers in an automobile in which a man was killed, when going through an old file. The inclosed check was for \$6.65, the principal plus 27 years' interest.

## EXPECT RESPITE FOR VANZETTI, SACCO TONIGHT

### Reprieve to Permit New Trial Is Forecast.

(Picture on back page.)

Boston, Mass., Aug. 2.—[Special].—Sacco and Vanzetti will not die in the electric chair Aug. 19. Neither will they be pardoned. Further reprieve, pending a new trial, by the Massachusetts legislature looking to a new trial, was indicated at the state house today as the temporary solution of the historic case of the Italian radicals, which Gov. Fuller will place before the council when it meets tomorrow.

Commutation to life imprisonment is one alternative that has been discussed but those who know Gov. Fuller are certain that this straddle will not please the state's chief executive.

Sacco Gloomy, Vanzetti Hopeful.

Late tonight, while the governor and his advisers worked on the report to be laid before the council tomorrow, the defense was more cheerful than it had been since the governor's investigation began. This optimism was not shared by Sacco, whose mind was weakening on the eighteenth day of his hunger strike.

Vanzetti is feeling better and partaking of a little food. He is buoyed up by the news that his sister has sailed from France and is due here tomorrow night.

## DEADLOCK ON NAVIES PUT COOLIDGE OUT OF RACE, BERLIN THINKS

BERLIN, Aug. 2.—[U.P.].—President Coolidge's announcement that he does not choose to be a candidate in 1928 caused a sensation here. It is attributed generally to discouragement over the naval limitation conference.

"President Coolidge has bowed before three facts," says the Vossische Zeitung. "First, popular feeling against a third term; second, the opposition of farmers, and, third, the Geneva fiasco, which constituted his last attempt to enter the election campaign with increased prestige."

The Tageblatt ventures the opinion that the President may have acted from a general feeling of pessimism regarding international disarmament. The Lokal Anzeiger echoes this opinion.

and his advisers worked on the report to be laid before the council tomorrow, the defense was more cheerful than it had been since the governor's investigation began. This optimism was not shared by Sacco, whose mind was weakening on the eighteenth day of his hunger strike.

Vanzetti is feeling better and partaking of a little food. He is buoyed up by the news that his sister has sailed from France and is due here tomorrow night.

## COL. LINDBERGH'S RECEPTION HERE OUTLINED TODAY

A definite program for the entertainment of Col. Charles Lindbergh, Aug. 13 and 14, will probably be announced this morning at 10 o'clock when Mayor Thompson meets with the executive group of his citizens' advisory committee, Elmer E. Stevens, acting chairman said yesterday.

After a preliminary conference yesterday, members of the executive committee forwarded to the mayor several suggestions for his consideration. Although "Lindy" has arranged to be in Chicago two days, Mr. Stevens said, no program will be arranged for Sunday, Aug. 14, at the flyer's request.

Col. Lindbergh will probably land either on the municipal flying field at 63d street and Cicero avenue or in Grant park south of the stadium.

Col. Lindbergh will be the guest of honor at the first of a series of three baseball games between picked teams of policemen from the north and south sides of the city at the White Sox park Saturday afternoon, Aug. 13, according to Chief of Police Hughes.

Passenger Dies on Train.

Mantoloking, N. J., Aug. 2.—[Special].—While on his way to the village of Glendon, six miles south of New York, Herman Bus, 56, died from a stroke of apoplexy on the train. His death was discovered by the conductor when Bus failed to get off at his destination. The death is the third in the Bus family within a year.

Neck Broken in Dive Fatal.

Hugo Fracassi, 34, of 6107 South Elm street, whose neck was broken last Sunday when he dived into shallow water in Cedar Lake, Ind., died at St. Bernard's hospital last night.

## Think of this today

Granted more widespread use of science in cooking, there would be less need for science in medicine.

Patrons of Henrici's are assured of food suitable in nature, ample in variety, sufficient in quantity and prices never excessive. Why not Henrici's for luncheon today?

## GET TO RALSTON WIRED

Stephenso  
See Rum

Indianapolis, Ind.,—D. C. Stephenso, dragon of the Indianapolis circuit, the highest paid prizefighter in the world, is being wired by the New York Daily Mirror to see that the telegram from here today in Walter Bossett, Indiana Klan doctor, is published, and that the telegram from here today in Walter Bossett, Indiana Klan doctor, is published, and that the telegram from here today in Walter Bossett, Indiana Klan doctor, is published.

The telegram of the exposure far flung politics. The Stephens, 24, 1923, and Glasgow, 1924, were widely addressed to Bossett. "Get to Walter Bossett," the telegram said. "You have Watson's half of Dr. Ed. Watson was persecuted for his testimony for the trial of the alleged but in fact as a selfish bit of Palmer against Rumely is the Indiana and a friend and a student tomorrow to see that the limit on the care of Borglum, has been done your work."

Rumely, who as a business owner of the boys, a country school at Lap 1920 of making ship of the De Palmer, alien testified the Progress Germany's cause oppose the Bri The United Appeals delay trial and the court denied a friends, including connection with obscure although of Borglum, be the white house

## GET TO WATSON, RALSTON, DRAGON WIRED HIS AID

Stephenson Wanted to See Rumely Pardoned.

Indianapolis, Ind., Aug. 3.—[Special.]—D. C. Stephenson, former grand dragon of the Indiana Klan, who claims to dominate Hoosier politics even in the highest places before he went to prison under sentence for murder of a young woman, interceded late in 1925 in behalf of Dr. Edward A. Rumely, publisher of the old New York Daily Mail, which he admitted was attempting to further the cause of Germany in the world war.

This was disclosed in a facsimile of a telegram from Stephenson published here today in which he commanded Walter Bosert, who succeeded him as Indiana Klan dragon, to have both Indiana Senators James E. Watson, Republican, and Samuel M. Ralston, Democrat, go to the President to save Rumely.

The telegram was published as a part of the expose showing Stephenson's far flung political activities. The Stephenson telegram dated Oct. 24, 1925, and supposedly sent from Stamford, Conn., home of Gustav Berglund, widely known sculptor, was addressed to Bosert and said:

"Get to Watson [United States Senator James E. Watson] at once through your friends in Indiana and have Watson see the President in behalf of Dr. Edward A. Rumely, who was persecuted just after the war on account of his property ownership law in fact as a result of the deepest and selfish bitterness of Wilson and Palmer against the Republican party. Rumely is a native American born in Indiana and was Roosevelt's closest friend and a thorough patriot. Have Watson and Ralston see the President tomorrow. You must not fail to see that they go down the line to the White House on this case. Wire me in case of Berglund at Stamford that this has been done and give me result of your work. After all, only results count."

**Rumely Owned School.**  
Rumely, who was known in Indiana as a business man at Laporte and owner of the Interlaken school for boys, a continental style preparatory school at Laporte, was convicted in 1925 of making a false report of ownership of the Daily Mail to A. Mitchell Palmer, alien property custodian. He testified the paper's purpose was to aid the Progressive party, to further Germany's cause in the war and to oppose the British war time blockade. The United States Circuit Court of Appeals July 25, 1925, returned a new trial and the United States Supreme court denied a review. Then Rumely's friends, including Stephenson, whose connection with Rumely, however, is obscure although he was a confidante of Berglund, began bringing pressure at the White House.

**Accused of Being Klansman.**  
Watson, Republican boss of Indiana, has been mentioned frequently in the Stephenson investigation. Ralston, former Indiana governor, was accused of being a klansman at the 1924 Democratic convention when he was a prominent dark horse for the presidential nomination but the charge was denied and dropped after the convention. He died a few months later.

Indianapolis city councilmen today charged that John Duvall, Klan supporter mayor, favored by Stephenson, has been using threats to prevent the council from impeaching him.

While Duvall was busy with his own political head the board of safety appointed by the mayor to have charge of city police and firemen reduced Claude Worley, chief of police detective, to lieutenant.

Stephenson alleges that he had a contract with Duvall providing for Watery's appointment as police chief.

D C STEPHENSON

Reproduction of telegram alleged to have been sent from Stamford,

Conn., by D. C. Stephenson, former Indiana Klan dragon, to Walter Bos-

ert in Indianapolis. It purports to show Stephenson's alleged influence

with Senator James Watson. It figures as evidence in the inquiry now in

progress.

**ILLINOIS FARM CHIEFS REJECT NEW AID PLAN**

**Doubt G. O. P. Scheme Will Meet Needs.**

BY FRANK RIDGWAY.

Administration leaders have ap-

parently missed the mark a mile in

their attempt to draft an adequate

farm aid plan, according to views held

by Illinois supporters of the McNary-

Haugen measure. Leaders of or-

ganized agriculture in this state who

made a preliminary study of the new

Republican proposal to stabilize agri-

cultural product prices through a fed-

eral board, seemed quite certain that

such a plan would not meet the ap-

proval of Illinois farmers. They made

it clear that they would stick to the

principles of the McNary-Haugen

bill vetoed by President Coolidge.

**Smith Assails New Plan.**

Earl C. Smith, president of the Illi-

nois Agricultural association and

champion of the McNary-Haugen

measure, made the following state-

ment for association officials after re-

viewing newspaper reports of the pro-

posal that has the approval of several

members of President Coolidge's cabinet:

"The program of farm relief said to

be sponsored by Secretaries Hoover

and Jardine impresses one as a mere

attempt by phraseology to cover up

the weaknesses so apparent in the

Fess and Tincher bills.

"Any program that fails to recog-

nize the merit and justice of spread-

ing the cost of withholding, storing or

exporting crop production over all the

producers of the commodity benefited

will be unsatisfactory to those who

have given close study to the farm

problem."

**Farm Federation More Friendly.**

A more friendly attitude is held by

the American Farm Bureau federation

which is headed by J. H. Thompson

who was a strong supporter of the

McNary-Haugen measure. In the

absence of Mr. Thompson, the follow-

ing statement was issued at the fed-

eration's headquarters here:

"Without opportunity of studying

the details of this proposal, the of-

ficials of the American Farm Bureau

federation cannot make any real com-

ment. The general aspect of the plan,

as published in the newspapers, indi-

cates that it carries at least part of

the things we are seeking for agri-

culture.

"We are pleased that the adminis-

tration is continuing to study the farm

## TORTURE MURDER CHARGE IS FILED AGAINST SUSPECT

Jack McGurn, 25 years old, owner of a saloon at 194 South Canal street, was formally charged at the detective bureau last night with the murder of Dominic Cindarella, whose body was found, sewn in a sack, in the Calumet river on July 16. Police have evidence that Cindarella was tortured and then murdered by a gang of four men.

Lieut. Philip Carroll and his bureau squad arrested McGurn, yesterday afternoon at Morgan and Harrison streets. Before they reached the bureau two attorneys were there, threatening to appeal for a writ of habeas corpus. Later they went before Judge Emanuel Eller to apply for the writ and the police, to fore-

stall an immediate hearing, placed the formal charge against the prisoner. Chief of Detectives William E. O'Connor admitted that he had no definite evidence to connect McGurn with the Cindarella killing, but wished to hold him until Al Wolf, the alleged head of a band of automobile thieves, can be found. Wolf, the police are sure, can tell a story that will justify prosecution of the saloonkeeper. It has been reported that Wolf, like Cindarella, had been picked as a murder victim.

**Pickford-Marilyn Miller Divorce Halts, Jack Says**

New York, Aug. 3.—(AP)—Jack Pickford, motion picture actor, today told ship reporters that all divorce action between himself and his wife, Marilyn Miller, musical comedy dancer, had been suspended. Pickford arrived from Europe on the Majestic.

## The Newest Designs in Our Semi-Annual Sale

Modern French

A beautiful example of the new French influence on modern furniture. Made of walnut with inlays of many precious woods. Chairs upholstered in imported silk damask.

Sale Price  
Sideboard ..... \$154.00  
Cabinet ..... 143.00  
Serving Table ..... 105.00  
Extension Table ..... 154.00  
Chairs ..... 59.00  
Arm Chair ..... 78.00

**YOU'LL want to see this furniture. At the recent Industrial Exposition in Paris appeared a new note in architecture and furniture design.**

In some cases the designs were almost grotesque; in all cases different, unusual. Our government sent leading designers to study these ultra-modern ideas; and now we are able to show you the results of their observation.

The group shown here is one example; highly artistic, with the elements of utility which we require, and with the grotesque features eliminated.

We had this group made on our own specifications; everything about it is exactly as we wanted it; the pieces are not made to match so much as made to harmonize with each other. The decorations are planned with that idea. It is a really wonderful example of beautiful craftsmanship.

You ought to see it, whether you want to buy it or not. Bring your furniture needs to us. Everything is "Scholle-quality," satisfaction guaranteed. The sale prices are very low.

### Rugs Also Marked Down

You can get more than usual for your money in rugs now; the sale prices are very low in that department also. It is a real furnishing opportunity.

### "GREEN TICKET SPECIALS."

## ROUNDOUP OF 100 CRIMINALS ASKED OF POLICE CHIEF

**Jail Them or Run Them Out, Commission Urges.**

Troubles without, and are in store for one hundred of Chicago's undesirable citizens, the police department has issued a proposal to the commission yesterday by the Chicago crime commission.

Searching through its records, the commission picked out a list of professional misdoers, holdup men, pickpockets, and rapists and made a study of their habits and habits. The list, numbering exactly 100, was sent to Chief of Police Hughes with a recommendation that the police arrest them on every possible occasion and on every possible charge.

Although the chief is out of the city, his aide declared that the plan will please him greatly, as it is directly in line with Mayor Thompson's pledge to drive all the crooks out of town.

**100 Are Well Known.**

"These 100 tough gentlemen are so well known that the police should arrest them whenever necessary," said Edward E. Gore, president of the commission. "Chief of Detectives O'Connor helped us prepare the list and has promised to keep it constantly before the men in his squad. I am certain that Chief Hughes will lend his support."

"Chicago has been dealing too softly with its criminals of late. Its well-known bandits, its light-fingered, gentle-faced, mild-mannered pickpockets and similar types.

"They are just plain crooks. They are murderers, robbers, burglars, and rapists under the law. The crime commission proposes that they shall be handled for what they are. They have built up powerful ramifications of protection—political, social and financial. They must be broken down.

**Organized and Financed.**

"These professional criminals are few in number but are well organized, well financed with money criminally obtained, and closely aligned with unscrupulous lawyers, witnesses whose testimony can be purchased, professional bondsmen and benevolent politicians willing to serve them as long as the public tolerates it.

"We are asking the police to notify them now that Chicago is a 'hot' town and they must completely mend their ways, get out, or go to jail."

Mr. Gore said his office force selected the blacklist of 100 out of 300,000 records of crimes and criminals compiled by the commission during the last eight years, together with all the records of the police criminal record bureau and bureau of identification.

## JUDGE, ARRESTED AS SPEEDER, IS FREED IN COURT

Judge A. W. Summers of El Dorado, Ill., who has been sitting in Traffic court here during the summer vacation season, was himself tried as a speeder yesterday.

Several days ago Judge Summers, while skimming along South Park way in his automobile with an El Dorado friend was hailed by a traffic policeman, who told the judge that he was driving 40 miles an hour and must appear before Judge Joseph Schulman. So yesterday Judge Summers hurried through his calendar in Traffic court to keep his appointment at the Wabash avenue court. Judge Schulman dismissed the case after Judge Summers pleaded that he had a clear street ahead.

## COP GETS YEAR TO LIFE TERM FOR OAK PARK THEFT

**CRIMINAL COURT.**

Albert Reinhardt, robbery; sentenced to 1 to 20 years. George Reinhardt, robbery; 1 to 20 years. Sam Bernold, robbery; 1 year. J. E. Adams, grand larceny; 1 to 10 years. Robert Fields, grand larceny; 1 to 10 years. Glen Burefield, petit larceny; 1 year. Fred Durich, burglary; 1 to 20 years. Charles Anderson, burglary; 1 to 20 years. Louis Gold, petit larceny; 1 year and a \$100 fine. Clair Kuma, contributing to the delinquency of a minor; 1 year and a \$200 fine by Chief Justice William J. Lindsay.

Joseph Badger, sentenced to 1 year to life by Judge Stanley Karkowski.

Joseph Badger, 22 years old, 7344 South Winchester avenue, former Oak Park policeman, pleaded guilty to a burglary charge yesterday before Judge Stanley Karkowski in the Criminal court and was given a sentence of from one year to life in the Joliet penitentiary.

Of Badger's two companions, Roy Molanus, 33, of 745 North Grove avenue, Oak Park, was released on probation, and the case of John Crumek, 23, was continued to Aug. 22.

A silver urn containing the ashes of the dead wife of Morley H. Fox, 883 North Grove avenue, was a part of the loot of the robber trio. Badger acted as lookout for the others, he admitted.

## THREE MORE DIE OF AUTO INJURIES; 1927 TOLL NOW 546

Sam Finenhedler, 8 years old, 2848 West Roosevelt road, was killed by an automobile yesterday at Mozart street and Roosevelt road. Norman Kaas, 3728 Grenshaw street, the driver, was held. The boy's death with two others increased the county's 1927 motor toll to 546.

Mrs. Emma Horton, 50, of 498 South Oakley avenue, died of injuries received in a collision July 17 at Wabash and Austin avenues.

Frank Malfait, 48, of 3643 Archer avenue, died of injuries suffered Monday when a truck on which he was riding sideswiped an automobile in front of 622 West 26th street. Malfait jumped from the truck and fell between the two vehicles.

An unidentified, red haired youth was killed in Gary, Ind., when he fell from a truck under the wheels of its trailer. The driver, John Cytis, of South Bend, Ind., who had ordered the stranger off the truck, was charged with manslaughter.

A coroner's jury exonerated Fred D. Stone Jr., son of the pastor of the Irving Park Methodist church, in connection with the death of Robert Sundberg, 11 years old, 1234 North Lawndale avenue, who was killed by Stone's automobile Monday.

**State Legislator Out on Bond in Rum Law Case**

State Representative John R. McSweeney surrendered yesterday to federal authorities on Volstead law violation charges arising from a raid by prohibition agents on the Commodore cafe at 127 South Kedzie avenue on July 21. McSweeney was released in bonds of \$1,000, pending a hearing Aug. 8 before U. S. Commissioner James R. Glass.

## MOTOR TRAFFIC LAYS CLAIM TO OLD HAYMARKET

### West Randolph Cited as Congestion Remedy.

Reclaiming of West Randolph street as a connecting thoroughfare between the loop and near west side again has become a live problem in dealing with traffic congestion.

Randolph street business interests are considering steps to abolish the market and farm produce and its vehicle jam in the old Haymarket square. Business men want the city to repair or resurface Randolph street from Des Plaines west to Union square, sixteen city blocks.

Such improvement of the pavement and removal of farm vehicles from Randolph street would provide an 80 foot street from the western end of Wacker drive to Union square with the exception of the distance from Des Plaines street east to Market street, including the bridge over the river. The narrow portion, however, would handle a large volume of traffic and provide an additional route, superior to West Washington boulevard.

**Businessmen Voice Demand.**  
"We have been working on a plan to develop this street for traffic for some time," was the statement of James J. Lalla, 809 West Randolph street, head of the business men's organization of that locality, "and if we can get it back into shape for public use, we believe we will be doing something, not only for the street itself, but for the entire west side."

"The completion of the Ogden avenue widening, which has stood partially finished for some years, but which is now being pushed by all interests of the west side, will make Randolph street of the utmost importance, if it can be used as a high speed connection between the western end of Wacker drive and Ogden avenue. It will mean fast time to and from the loop for all traffic that may use Ogden avenue."

The idea of Mr. Lalla and his associates is that Randolph street can be put into excellent shape at comparatively little expense and in a short time. The bottle neck created by the twin fourteen story buildings of Butler Brothers at Canal street, they say, probably will remain, and time would drag if widening were attempted at present east of Des Plaines street.

**Would Remove Wagons.**  
"The main necessity is the removal of the market wagons," he said. "There is no question that West Randolph street ought to be a traffic artery," said Eugene Taylor of the Chicago plan commission, "but the idea of boulevarding it seems to offer many problems including the street car lines and the bottle neck at the east end. It is a 150 foot street all the way out and could be made into a high speed connection for the west side with little expense. The proposed change, however, does not come within the scope of our program."

Charles M. Hayes, president of the Chicago motor club, has interested that organization in the project. He expects to get it before the board of local improvements at once. He has

ordered a survey of the route to be started today and a canvas to show sentiment of business men and residents along that thoroughfare.

Millions were spent on the widening of Randolph street west from the Haymarket at the time the removal of the South Water street market first was agitated. The project was one of the first of the street widenings in the city to be completed, but when the South Water street commission houses finally had to move quickly, property values had inflated to such an extent that they passed by Randolph street and went to the new location further south and west.

Today the market place on Randolph is made up of small dealers and wagon merchants for the most part, and comprises a sort of "curb" attachment to the regular farm produce commission house community. As an informal market place, as compared to the new market, prevailing rents for stores are estimated to be about one-half the normal carrying charges on property investments there.

Robert Kingsley, general manager of the Chicago Regional Planning association, speaking before the Rotary club yesterday, said from 12 to 15 boulevards as wide as South Park way, radiating from downtown Chicago to points fifty miles in various directions, are being planned to meet the traffic demands of 1950. These radial boulevards would be served with 200 foot belt highways at intervals of 4 to 8 miles, which would encircle the community.

## GIFT OF \$10,000 FOR WAGES MAY SAVE SYMPHONY

Events moved swiftly yesterday in the Orchestra association's controversy with the musicians' union, and there was at least a probability last night that an amicable adjustment of the disputed wage scale might be reached in time for the Symphony to resume its activities this coming season.

Paul Ash, jazz orchestra director, set the wheels in motion when he announced that he would contribute \$10,000 of the nearly \$30,000 necessary to make possible the wage increase demanded by the union. His only stipulation was that the \$10,000 be disbursed for wages only.

**Oakley Issues Statement.**

Horace Oakley, vice president of the Orchestra association, issued a statement in behalf of the trustees last night in which he said the news was gratifying, the offer was appreciated, and that it might lead to the resumption of plans for the concert of the approaching season. But official action

is impossible, he pointed out, until he can get in touch with the trustees, all of whom, except himself, are out of town.

Mr. Oakley was emphatic in stating that the association would not consent to handle the funds, but would renew the contract with the musicians for one year, and would be glad to see the \$10,000 administered by a disinterested agent.

**Payroll Bandits Get \$1,600 in Holdup at Evanston.**

S. R. Mourad, president of the Aetna Cleaning and Dyeing company, Evanston, was held up yesterday en route from a bank to his office in his automobile, and robbed of a \$1,600 payroll. Three men in a car forced Mourad's automobile to the curb under a viaduct at South boulevard and Chicago avenue, Evanston, and took the money from him.

MILLINERY—FIFTH FLOOR.

More than **FOUR BILLION DOLLARS** is the estimated intrinsic value of Chicago real estate, comprising over two hundred square miles of land and buildings which are the homes and workshops of more than three millions of people

**C**HICAGO real estate may be likened to a gigantic bank with four billion dollars in basic, tangible assets. Every year since its birth as a city in 1837, Chicago has shown phenomenal increases in real estate values. Every year it has piled up millions in dividends to enrich its thousands of real estate owners. At present, this stock is earning dividends at the rate of approximately one million dollars per day—that is the increased value which each day's time adds to Chicago's real estate wealth.

Do you know that only ten per cent of Chicago's people own its real estate resources? It is to them that the equivalent of one million dollars in profits is credited at the end of each day. This is the reward for their faith in Chicago's growth and fu-

ture. The remaining ninety per cent of the people are helping to create this wealth but get nothing in return.

You who belong to this ninety per cent class are entitled to a share of the vast wealth produced by the enormous growth and progress of your city—wealth you are directly helping to create. You also can be the owner of stock in this four billion dollar bank. The way to get it is to invest

in Chicago real estate, the soundest security on earth.

You have doubtless passed up many real estate investment opportunities which would have made you independently wealthy; but you still have a chance, for never in Chicago's history were there better offerings for the right kind of investment; never such possibilities for rapid increases in land values as exist today.

Foremost in the field of Chicago real estate enterprise, is Krenn & Dato, Inc. This organization, by itself, and as exclusive agent for the extensive real estate holdings of the Edith Rockefeller McCormick Trust, substantiates its faith in the boundless future of Chicago by investing millions of dollars in building and improving some of the finest subdivision and construction developments in the country.

Krenn & Dato have served thousands of people with painstaking care, helping them to make profitable investments in Chicago real estate. They can do the same for you. Find out today how you can own stock in the four billion dollar bank of Chicago real estate values and how you may share in the million dollar a day profits that you are helping to create.

**KRENN & DATO, Inc.**

## ON THE SIXTH FLOOR

## The August Sale of Furs

Includes a Large Collection of Misses' and Small Women's Coats in All the New, Smart Furs

Many dollars saved on imperfect Furs could never make up for their imperfection—that is why the Field label on Furs purchased in August is so important. It means that your Coat, Scarf or whatever piece you choose represents the best in material, style and workmanship—and at the same time a very great saving. For Furs bought here at August prices are, of course, of the same standard of excellence as Furs bought at any other time of the year. Our collection of misses' and small women's Coats is exceptionally large this year, and includes all the smartest furs. Three attractive models, in Squirrel, Caracul, and Ermine, are sketched above.

Fur Sections, Sixth Floor, North, Wabash

## A Very Special Selling of Fine Imported Soaps

You need only glance at this list to know how very unusual are the prices. And unless you have an unusual memory, you won't be able to recall when several of these excellent soaps were so low in price.

Rieger's Transparent Crystal Toilet Soap, box of 3 cakes is priced at 65c. Bromley's English Guest Soap, Jasmine, Verbena and Cologne, box of 12 cakes, \$1.25. Wolff's Florasoma Bath Soap, 3 large cakes are priced at 70c.

Soaps, First Floor, North, State

## All-Silk Umbrellas, \$8.50

A special purchase is responsible for this very low price on Umbrellas of such outstanding excellence. The covers of an extremely fine quality of heavy silk are all 16-rib models, and many novel handles are included in this assortment. In smart fall shades.

Umbrellas, First Floor, South, State

## SUZANNE TALBOT'S "L'AVION" the FIRST FALL HAT from PARIS

The hat of the coming season is the infinitely chic little skull cap, "L'Avion" as it is called in Paris. Every great milliner in Paris is showing it in her own interpretation. This soft, skull fitting Suzanne Talbot mode sketched here may be had in felt, velvet, soieil felt or hatter's plush or combinations of these materials, for immediate wear or custom made on the head.

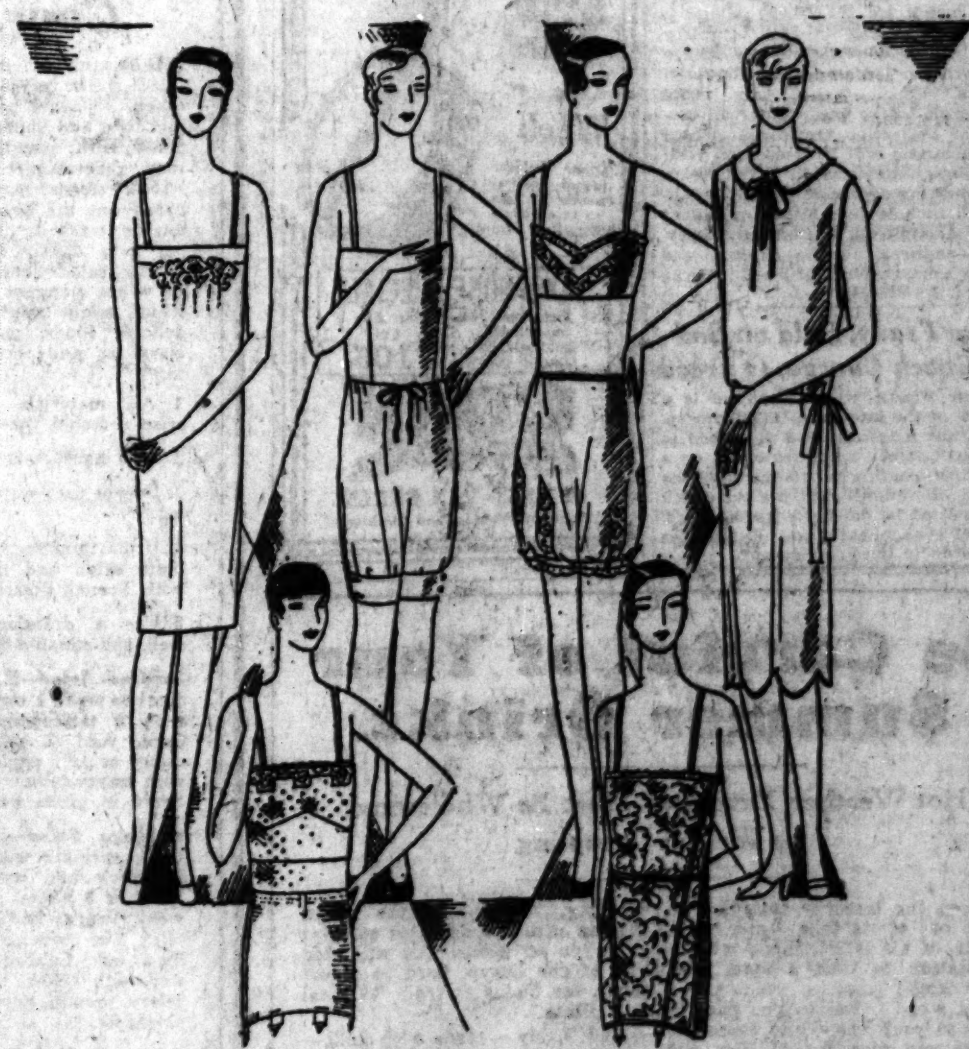

The French Salon, the Debutante Salon, Fifth Floor, North, State

## Custom Apparel Models Are Reduced in Price

Handsome models of afternoon, street, evening gowns, suits, coats and sports dresses, designed for us or imported from Paris, are much reduced in price in order to effect immediate clearance.

During August orders for Custom Apparel are accepted at less than regular prices.

Temporary Location, Seventh Floor, South, Wabash

## Fine Crepe de Chine Lingerie Is an Exceptional Value at \$5

The Costume Slip, left above, is of excellent material with hip hem and georgette top with embroidery. In pink and white. Another tailored and practical Costume Slip, not pictured, is combined with Step-ins.

The crepe de chine Combination, second, hooks at the side; in pink only. Bandeau sets like the one sketched include Bandeau and Bloomers, trimmed with val lace in pink, blue, peach, and nile. Also, not sketched, a tailored model with piping and cuffs of a contrasting shade.

The crepe de chine Gown, extreme right, is piped in contrasting colors in such attractive combinations as pink with blue, peach with nile, blue with coral.

Silk Lingerie, Fifth Floor, South, State

## Corsettes, Ceintures Specially Fashioned for Warm Weather

An attractive all lace Corsette, pictured above, right, is net lined, with two sections of hand loomed elastic in skirt and elastic shoulder straps. \$7.50. Extremely lightweight is the imported English elastic Step-in Ceinture, sketched left. It is woven to confine the figure without boning, in flesh and madonna blue, \$9. Worn with it is a Brassiere of dotted double net, lace trimmed, with satin shoulder straps (garters attached), priced \$3.50.

Corsettes, Ceintures and Brassieres, Fifth Floor, South, Wabash

## SUCCESSOR DIES AS DID ILL FATED LINDY ESCORT

Lieut. Schulze Killed at  
Selfridge Field.

Mr. Clements, Mich., Aug. 2.—(AP)—Flying 1,000 feet from his burning airplane at Selfridge field here, Lieut. Leclair D. Schulze, commander of the Twenty-seventh squadron, was killed today when his parachute did not open until just before he struck the ground. The ill fated flyer took over the command of the squadron only last month when he succeeded Lieut. F. Thad Johnson, who was killed at Ottawa, while leading an escort flight with Col. Charles A. Lindbergh. Lieut. Schulze did not participate in the Ottawa flight.

Plane Seen to Catch Fire.

Fellow officers at the field noticed Schulze's plane burst into flames at a height of about 1,500 feet. As the ship hurtled toward the earth, Schulze was seen to climb from the cockpit and leap. His parachute opened only a few feet from the ground. The blazing plane crashed about fifty feet away and was destroyed by fire.

Examination revealed that the parachute was not defective and that the rip cord had been pulled. Witnesses believe that Schulze, after remaining with his blazing ship too long, was struck by a projection as he swung away. Dazed, it is believed, he did not recover consciousness and pull the rip cord until he had fallen most of the distance.

Was D. S. M. Hero.

Lieut. Schulze, who was 34 years old and unmarried, was during the world war, a test pilot at the United States overseas aviation base at Leonsau, France, and recommended for the Distinguished Service Medal.

Coming to Selfridge field in 1920, he served for a time as adjutant of the first pursuit group, but was detached to participate in the army's flight around the world. In 1922 he piloted a Loening monoplane in the Pulitzer trophy race at Selfridge field. During the round-the-world flight he was in charge of a base established in Greenland.

**MAYOR TO OPEN  
NEW PUMPING  
STATION AUG. 4**

The first unit of Chicago's newest pumping station, a \$10,000,000 plant at Western avenue and 48th street, will be opened next Thursday at 4 p. m., Commissioner of Public Works Wolfe announced yesterday. Mayor Thompson will officiate.

The station, which was started in November, 1915. When completed it will be the largest in the world, having a capacity of 300,000,000 gallons a day and supplying an area of thirty square miles. It is designed to relieve the overtaxed 21d street and Roseland stations.

A parade led by the mayor will precede the dedication services at which Mr. Thompson will be presented with an honorary membership in the steam and operating engineers' union. Speakers will include Joe Haley, president of the union; Frank McDonough, supervising engineer at the station, and Deputy Commissioner of Public Works Edward F. Moore.

**Edgar Frady, Held on Bad  
Check Charge, Is Freed**

Edgar Frady, who claims he is a nephew of the late John R. Thompson, restaurant magnate, was dismissed from the Clark street court yesterday on a charge of passing a worthless check for \$10. He admitted giving the check but asserted he did not know his bank account was overdrawn. Restitution was made to the complainant.

## Be Careful of Your Summer Drinks

Hot Weather Beverages Must Be Wholesome  
as Well as Tempting

When the mercury is trying to climb out of its bed and not a breath of air is stirring—what a temptation to take a long, cold, fizzy drink!

But stop! Before you put the glass to your lips—and especially before you give the children any—ask yourself "Is this drink really cooling; is it wholesome?"

Remember, a great many of the popular summer drinks are far from wholesome, and really not cooling—even though they tinkle with ice, sparkle with bubbles and glow with gorgeous colors.

Too much charged water and too many ice-cold drinks are bad for the stomach and kidneys. The sweet syrup from which soft drinks are made is heat making. The stomach, especially, gets overheated from over work; and so the cooling drink makes you feel like a furnace!

Shake up a cool, refreshing Toddy—it takes but a minute. Looks good and tastes better—

## ALIMONY CLUB WILL DRAFT PLANS TONIGHT IN SECRET SESSION

The Alimony club will perfect its organization and map out its war against gold digging in the divorce courts at a meeting tonight at 13 South Michigan avenue. It will be an executive session, for members only, for the benefit of those who cannot afford to be known as associated with the club, Dr. Vernon P. Cooley, its president, announced.

Organized only two weeks ago, the campaign against crooked lawyers and framing detective agencies and the drive for public sentiment to modify the Illinois alimony laws have gained much momentum, according to Dr. Cooley. A wealthy manufacturer, the dentist said, has volunteered financial backing to the enterprise.

And although only two weeks old, the club has widened the scope of its activities to care for distressed women as well as men. Dr. Cooley told of a mother of five children coming to the club's new office at 138 West Madison street seeking aid in getting a maintenance order against her husband. She was promised help.

Another service which may be inaugurated in regular visits by a club representative to the county jail to help deserving men committed for non-payment of alimony.

While Dr. Cooley was studying these club activities, his former wife, Mrs. Margaret Metter, appeared before Superior Judge Joseph David with a motion to compel the dentist to show cause why he should not be held in contempt of court for failure to pay \$200 she claims is due for solicitor's fees and suit money. Hearing was set for Monday.

Was D. S. M. Hero.

Lieut. Schulze, who was 34 years old and unmarried, was during the world war, a test pilot at the United States overseas aviation base at Leonsau, France, and recommended for the Distinguished Service Medal.

## 'WILDCAT' FLYING OUTLAWED AS 5TH PLANE CRASHES

Eighth Air Victim Dying;  
Drastic Action Taken.

(Continued from first page.)

much information about unsafe flying in the Chicago area. He told of "running off" several aviators from his field and giving their names, he told of the accidents they had later, seven persons being killed through their incompetence and negligence, he said.

It was decided by the committee that the county had jurisdiction to halt

unlicensed flying, one reason being advanced was that the safety of the roads was involved, and because of this Maj. George A. Quinlan, superintendent of highways, was put in charge.

Father Here for Burial.

Edward C. Zabinski, head of the Washington-Irving high school of New York City, the place formerly occupied by Supt. William McAndrew, came here yesterday to attend the funeral of his son, George A. Zabinski, who was killed Saturday night. He said his son had taken an aviation course at Princeton during the early days of the world war, and although only 19 years old, was given a commission as second lieutenant in the army and assigned to the aviation division.

He said the youth had remained in the army for some time as an instructor of flying and had 400 hours in the air to his credit. He made this statement, he said, in justice to his son's memory, because of reports that the son was not a competent flyer.

The coroner's jury had not completed the inquest over the bodies of Zabinski and James Rose who were killed Saturday, but another jury found the deaths of William C. Quase, instructor, and Clarence A. Hasky, student aviator, killed Monday night, to have been accidental.

## FRENCH GUARDING LEVINE PLANE FOR USE OF DROUHIN

(Chicago Tribune Press Service.)

PARIS, Aug. 2.—Comrades of Maurice Drouhin, employed as pilots on the French air lines operating from Le Bourget field, tonight are mounting guard over the monoplane Miss Columbia's hangar to forestall any attempt of Charles A. Levine to take the trans-Atlantic machine to England.

Hearing persistent rumors that Mr. Levine is signing up an English pilot, the French birdmen are determined that M. Drouhin shall have his big chance to fly west across the Atlantic, since to go with Levine he gave up his opportunity to pilot the Farman Bluebird on its trans-Atlantic flight.

Mr. Levine tonight returned from London. He indicated that he would be happy if M. Drouhin quit. "I won't be the first to break the contract," Mr. Levine told THE TRIBUNE. Lawyers for Mr. Levine and M. Drouhin are to meet again tomorrow.

CAR HIT BY CURVE; 3 DIE.  
LOS ANGELES, Aug. 2.—(AP)—Child Donald, 17, and his brother, Val, Donald, 15, sons of James Donald, a farmer, were killed last night when their car hit a curve.

## A little child can see them

It is as simple and easy for a woman to see and know that she profits every time she enters the A&P, as she can see nothing but foodstuffs of known quality and can easily calculate her savings. In fact, her advantages are so plainly visible that a little child can sense them!

**The Salad Course**

At this time of year when the salad is the place of honor, it should be a satisfying dish, and should be combined with something hot—soup, vegetable or dessert.

Most salads may be prepared in the morning, the lettuce washed, drained and put in a tightly covered jar. If the salad contains onion or other pungent ingredient which might taint the more delicate foods, put it in a glass jar and screw on the cap.

1. All materials should be crisp and cold, the lettuce dry. 2. Mix ingredients lightly. 3. Do not use too much dressing.

4. If mayonnaise is used, marinate salad and lettuce first with French dressing. 5. Use a dressing seasoned well, and suitable to the salad.

**Sardine Salad**—Flake sardines to make 1 cup. Marinate with 2 tablespoons lemon juice. Add 1 cup chopped celery or tart apples and mix with mayonnaise. Serve in glass pepper rings.

**Cabbage Salad**—Shred cabbage, sprinkle with salt, put in crock and weight down for 2 or 3 hours. Dress with weak vinegar and pepper (no oil). The vinegar may be heated. Cabbage combines well with beans, beet, onion, celery, tomato, pepper, apples, pineapple.

**Potato Salad Variations**—Onion—Onion of chopped onion, use sliced onion or onion juice. Pickle—Mix with potato 1/4 cup chopped cucumber or dill pickle or use piccalilli. Egg—Use 1 1/2 cup potato, 2 or 3 chopped hard cooked eggs, chopped green pepper or pimiento. Cucumber—Use 1 1/2 cup potato and 1/4 cup sliced cucumber. Bacon—Add 1/4 cup crisp bacon added to the potato. 1 teaspoon minced onion and 2 tablespoons minced parsley.

Send for my page "The Salad Course." It gives recipes, menus, and suggestions for this dish. Just drop me a card. If I can help you in any of your hot weather problems, let me know.

## BALDWIN TELLS CANADA IT SAILS ITS OWN SHIP

He Says Dominions Are Masters of Their Destiny

BY ARTHUR EVANS.

OTTAWA, Ont., Aug. 2.—Prime Minister Stanley Baldwin made another appeal for British empire unity tonight at the close of a day of ceremonial and festivity, which welcomed the Prince of Wales and his brother George, and the British premier to the capital of Canada. The party arrived about noon on a special train from Montreal. More than 25,000 persons lined the streets and cheered themselves in the lawn of parliament to welcome them. On

parliament hill were many thousands in silk hats. Mayor J. D. Dillabough bade the visitors welcome in the name of the city. The Governor General and Lady Willingdon gave their greetings at the train. The prince of Wales wore the uniform of a colonel of the Welsh guards.

At a dinner given by the dominion government at the house of parliament tonight, Mr. Baldwin gave his interpretation of the results of the imperial conference last fall, and more than ever it was indicated his prime mission here is to tighten up the links.

Prime Minister Baldwin said the efforts of the imperial conference last year might be summed up in three words—consideration, cooperation, coordination.

"Let me take 'consideration' first," he said. "The view of the conference was that no part of the empire should be left out of the common weal without counting first what effect its own action may have on other parts of the empire, and without giving consideration to the chance of expressing their views."

"I confess I look upon this consultative method of conducting external relations, which are of more than individual interest, as one of the most interesting and hopeful experiments in that great laboratory of political experiments, the British empire."

"Every self-governing member of

the empire is now the master of its destiny, and in fact, if not always in form, it is subject to no compulsion whatsoever."

He said this principle could not be enunciated without special emphasis on a second principle—namely, empire unity under the crown.

—Associated Press.

"The crown thereby," he said, "is given its due place as the abiding symbol of the unity of the various parts of the world which owe a common allegiance to his majesty, the king."

"I pass to 'cooperation,'" he continued. "The point I want to emphasize is this: Now that no question arises as to the constitutional status of any of the self-governing parts of the empire, each is free to develop its assistance to others precisely as it thinks best in trade, in defense, in migration, in research, in countless other ways."

He then took up the word "coordination" and pointed out that Lord Balfour's committee said the principle of equality and similarity appropriate to status does not extend to functions.

Canada's share growing.

"Thus," he said, "the government of which I have the honor to be head has had in the past and still admittedly has the major responsibility in matters of foreign affairs and defense. Canada's share of responsibility is growing. But this diversity of function in administrative matters is large

ly a matter of convenience and can be altered quickly or slowly."

"Hence," he said, "the imperial conference recommended alterations to use a homely phrase, where the shoe pinches, and there alone."

The prince of Wales also spoke, emphasizing the autonomous status of the dominions, with their common allegiance to the crown, which "stands above all distinctions of country, race, and party."

Today the prince of Wales himself came out as a son of the soil. The third world's poultry congress is now being held at Ottawa. The prime minister is a brooder of blue ribbon hens, but the prince of Wales as a chicken fancier is exhibiting some fancy birds at the hen congress. Yesterday C. S. Miller of Ohio bought three of the Buff Rocks in the prince's exhibit, the purchase price being quoted in a local newspaper as \$250 for the three birds.

### 'Terrible Monster' Captures Back Yard, Scares Woman

(Picture on back page.)

Mrs. A. M. Martin of 234 South Ridgeland avenue reported to the Oak Park police yesterday that a "terrible monster" had taken possession of her back yard. Policeman Milton Gill responded and found that the intruder was an alligator two feet long. It was captured and taken to the police station in a wash tub.

### EXTRA TEACHERS TO DEMAND PAY HELD BY BOARD

Representatives of 400 extra teachers, whose positions in school offices have been ordered filled with civil service employees, will appear before the board of education at its meeting this afternoon and demand their monthly salary checks which were withheld last week.

After a two-hour conference with Mayor Thompson and President J. Lewis Cost of the board of education, Miss Margaret Hyde, chairman of the extra teachers' committee, announced that the fight to retain their jobs would continue. Grant Beebe of Lake high school and C. E. Perrine of Lake View high represented the principals.

"At the beginning of every new administration the civil service commission has demanded that extra teachers be replaced by civil service clerks, and nothing has ever come of it," Miss Hyde said. "Why, then, should this administration immediately submit to the demands of the commission? We will take our case to the courts if necessary."

DOG IN LOOP AFTER WOMAN. Mildred King, 21, of 5644 South Carpenter street, was taken by a dog yesterday while at State and Washington streets. The wound was treated by a physician. The dog was killed by police.

### U. S. USES 61% OF WORLD'S PHONES, STATISTICS SHOW

Sixty-one per cent of the world's telephones are in use in the United States, according to statistics released yesterday by the Illinois Bell Telephone company. A total of 27,723,263 telephones are used in the world, of which 16,835,518 are in this country.

In the United States on Jan. 1, 1926, it is stated, there were 14.8 telephones for every 100 of the population, as compared with only 1.5 telephones for every 100 of population in Europe. In New York City there were more telephones than in the whole of Great Britain and northern Ireland, according to figures, while Chicago had more telephones than the whole of France.

There were 195 telephone conversations for every man, woman and child in the United States during 1926, as compared with only 15 conversations per capita in Germany, though that country ranks next to the United States in the number of instruments in use. Americans during 1926 talked 25,000,000,000 times over the phone, equivalent to a conversation every second for more than 700 years.

WOMAN INJURED BY STREET CAR. Mrs. Jennie Salmon, 55, of 7110 Ridgeland street, suffered possibly fatal injuries late yesterday when she was knocked down by a street car on a street near State and Madison streets. Her skull was fractured.

## Mandel Brothers

Fine French originals are featured in our August sale of furs

The coat of luxurious Persian lamb, sketched below, is \$645. Of Parisian origin, it has a collar of cocoa ermine and a pointed back.

Copies of French models from our own work shops, executed by highly skilled workmen, are also available in the finest pelts.

Furs purchased now will be stored gratis until November 1st.

ADVERTISE IN THE TRIBUNE

## N. Y. 6 HOUR HOP FOR BERMUDA'S AERIAL BOMBERS

### Island Is Flight Base in Theoretic War.

Development and value of Bermuda as an air base in time of war is the theme of this, the third of Lorimer Hammond's articles upon the chain of British outposts along the American coast. Mr. Hammond is a foreign staff correspondent of The Tribune. Earlier articles dealt with Bermuda's strategic position in the event of a naval attack upon the Panama canal.

BY LORIMER HAMMOND.

(Chicago Tribune Press Service.)

ST. GEORGE, Bermuda, Aug. 2.—Bermuda's marine importance is established. The position these islands might assume in aeronautical warfare remains problematic.

Location seems to make Bermuda a formidable air base. But weather conditions are uncertain during about half the year, and no ground is available for landing. So far the British Royal Air Force has done little or nothing at Bermuda.

An attempt to solve the question of Bermuda's air possibilities is just signalled here in the appropriation of \$10,000 to be offered by the local trade development board for the most successful heavier-than-air flight from America to Bermuda or from Bermuda to America.

The flight must be accomplished within four months after the official announcement, which will soon be made in the United States, England and Canada.

Open to All Nations.

There will be no restrictions concerning the nationality of entrants or types of planes used. Safe navigation will be the principal factor in choosing the winner. The committee has suggested that a descent upon the sea and reconnaissance of flight therefrom will be desirable.

The use of Bermuda as an intermediate stop and fueling depot during trans-Atlantic flights has been planned several times, but never yet carried out with a heavier-than-air machine. In the summer of 1923 the ill-fated United States navy dirigible Shenandoah made an unsuccessful effort to land here in one of the dense rainstorms characteristic of the climate. A year later the same ship achieved a flight to Bermuda and back under more favorable conditions.

Hard for Flyers to Find.

The minute size of this island group makes it such a small target in the Atlantic that finding it in adverse weather is bound to be a difficult task. Until wireless direction instruments and compasses become more reliable. If the Bermuda-bound flyer missed his mark he would have nothing except hundreds of miles of open ocean around him.

Navy planes operating with carrier

## ALDERMAN OFFERS CHARITIES \$5,000 IF TAXES BUILD SUBWAY

Ald. Leonard J. Grossman (8th) offered yesterday to give \$5,000 to charity if Mayor Thompson starts to dig a subway by special assessments before the end of his present administration.

The alderman's challenge came as a reply to an attack by Acting Corporation Counsel James W. Breen on a proposal by bankers for whom Grossman says he speaks to build a 121 mile subway system with private capital.

Mr. Breen scoffed at "the Grossman dream" and said the mayor is going to build the tube on an assessment basis with or without further legislation.

"I will give \$5,000, equally divided between Jewish, Catholic and Protestant charities, if the special assessment plan is completed in this administration," Ald. Grossman announced.

"They won't be through litigating by that time."

"Why," the alderman asked, "did the city law department urge senate bill 426 (one of the defeated tunnel bills) if the city has full right to build a subway by special assessment as he says? That same bill is being redrafted for the council transportation committee and the special session of the legislature that Gov. Small will only call if he knows the city hall is with him for another term."

ships or battle craft should, nevertheless, have a useful base in Bermuda for supplies and repairs.

In case of hostile attack, reconnaissance from the air would be necessary to protect the islands from fleet bombardments at long range.

Some theorists of modern war hold to the opinion that the advent of bomb carrying planes and dirigibles has rendered such strongholds as Gibraltar and Bermuda a great deal more vulnerable than they were.

Weakness of Gibraltar.

It is said of Gibraltar that British naval policy no longer places complete faith in the famous rock fortress, because Gibraltar has no nearby hinterland from which to operate sufficient British air forces to counteract enemy air concentrations. I heard it declared in Mediterranean naval circles last year that Great Britain would be more than willing to exchange Gibraltar for the Spanish-African port at Ceuta, which might also be developed to command the straits and has the extra advantage of a hinterland.

During the world war German dirigibles made a practice in the Baltic demonstrated quite clearly how much the efficiency of such operations are at the mercy of the elements. From the survey I have made it does not seem likely that an air force based on Bermuda would be fortunate for any extended length of time.

Storms Arise Suddenly.

Five months in the year the sea route between Bermuda and the coast of the United States is subject to weather disturbances extremely unfavorable to flying. From December to April this part of the Atlantic has many severe northwest storms, arising so suddenly that accurate forecasts are impossible, and often continuing for many days. Rarely is there a whole clear day on the Bermuda-New York route during the winter months.

Better conditions prevail from April to June, but the fog is then on the

## NAVAL PARLEY WAVERS; ENVOYS WAIT SHOWDOWN

(Continued from first page.)

that a second class of cruisers be created with a maximum of 1,000 tons each. It is said that probably America could install guns of the eight inch caliber on vessels of such displacement.

Then comes a clause of "safeguard" whereby any signatory power would have the right to denounce the arrangement after a new meeting of the representative powers concerned, if they deemed that the building activity of co-signatories menaced the security of the complaining power.

Ambassador Gibson denied today that he had received instructions from President Coolidge to end the naval conference. The President, he said, had left the question of the termination of the conference entirely to his discretion.

PROPOSAL IN DISFAVOR

Washington, D. C., Aug. 2.—(Special.)—It is apparent in Washington tonight that the Japanese compromise "naval holiday" proposal, submitted at Geneva today, will not be acceptable to the United States.

As the proposal is interpreted in Washington, each of the three powers could complete its authorized cruiser program. In addition, Great Britain and the United States would be limited to the construction of twelve 10,000 ton cruisers up to 1931. This last

provision is one that strikes fire, as officials cannot see why the United States should limit itself to construct only twelve cruisers of the type it needs before 1931 merely to effect an agreement.

Secretary of State Kellogg, Secretary Wilbur and other administration officials spent this evening making an extensive study of such details of the Japanese plan as have reached Washington. As many of the points in the proposal are indefinite, Secretary Kellogg will withhold his decision until after recommendations from Ambassador Gibson are received.

German Flyers to Use Radio Phone Crossing Atlantic

BERLIN, Aug. 2.—(AP)—Wireless telephony will be employed by Otto Koenigs and the two Junkers W-31 monoplane for keeping in touch with the world during their trans-Atlantic crossings to America as officials of Telefunken Gesellschaft (German radio company) said today.

The transmitter uses wave lengths anywhere between 300 to 1,500 meters. A generator driven by the propeller supplies 1,500 volts. Both pilot and navigator will wear headset microphones.

## Wanted— a woman who can write

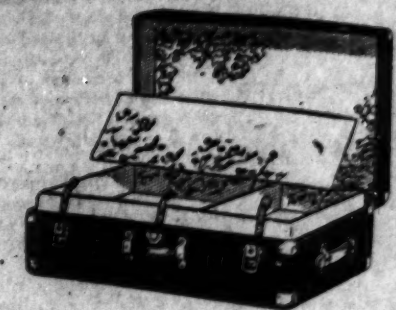

AN unusual opportunity for a woman of maturity and sound judgment who is a genuinely able writer. She must have insight, imagination and exceptional skill in the use of words. She must desire a permanent advertising career in this company and be willing to serve an apprenticeship in copywriting. Experience in advertising unnecessary.

If you have these qualifications in full measure, there is a real future for you in this organization. Apply by letter; no other applications can be considered. State your name, address, age, education and business experience, using not more than one side of a single sheet of paper. Writing tests will be offered to selected applicants.

# Introducing The New Vogue

## Interior Color Harmonies that match the lovely effect of the Drawing Room...

Buick for 1928 sets a new vogue in motor car design—

—a vogue for faithfully reproducing in closed car interiors the exquisite matching of colors... the tasteful harmony of appointment... the luxurious comfort with which America's foremost decorators have endowed our finest drawing rooms.

Rich fabrics, covering walls and ceilings, blend pleasantly with exterior finishes, forming a neutral background for matching or contrasting interior effects. Form-fitting tailored seats are upholstered in attractive materials of the finest quality. Carpets of pleasing pattern add a touch of lively color.

Now you can have a motor car as charming as your drawing room—a Buick for 1928. See these lovely closed cars at the nearest Buick showroom.

## CONDEMNED MAN WEDS IN SHADOW OF DEATH CHAIR

Reaches Through Bars to  
Hold Hand of Bride.

Princeton, N. J., Aug. 2.—[Special.]—A marriage took place in the shadow of the death chair today. As five condemned men in the state prison looked on from their cells, Salvatore Merra, who goes to the electric chair on Friday night, thrust his hand out between the bars of his cage and the Rev. Cornelius McInerney silently united him in marriage with the pale woman who stood close to him.

The woman, whose name is being withheld, and Merra were married in order that their two-year-old son would have a name. Merra was convicted of slaying a woman and was serving a life term in the state prison.

**Loss Appeal for a Stay.**  
Salvatore Bannelli was a co-defendant. State Senator Alexander Simpson, as counsel for Merra, has fought the death sentence imposed upon his client on the ground that the verdict, a recommendation of life imprisonment for Bannelli, applied also to Merra because the two verdicts were not separated on the minutes by a "verdict" but by a comma.

Merra's last chance for a life sentence instead of the electric chair passed this morning with the decision of United States Circuit Court Judge J. Warren Davis denying an appeal for a stay of execution to permit review of the case.

**Bank Cashier, His Assistant and Stockholder Arrested.**  
Pittsfield, Ill., Aug. 2.—(AP)—A. E. Conrad, cashier of the closed New Salem State bank, and Mrs. Mildred Little, assistant cashier, were arrested last night charged with receiving stolen goods when they knew the bank was insolvent. A. F. Duncan, a stockholder in the bank, has been arrested charged with forgery. All three were released on bonds.

**India Acts to Stop Women Working in Coal Mines.**  
[Chicago Tribune Press Service.]  
BOMBAY, Aug. 2.—The government of India is issuing regulations under which it is to prevent women from working underground in the Bengal Dhar coal mines and the Punjab salt mines.

## FINANCES OF ITALY ARE ON SAFE GROUND, MUSSOLINI ASSERTS

[Chicago Tribune Press Service.]  
ROME, Aug. 2.—"These months of economic unrest which are not typically Italian, but world wide, have given rise to unusual anti-Fascist international speculations, based on inventions and lies. The truth, however, is that Italy is the quietest and most orderly country in the world, and therefore better able than any other country to overcome the difficulties involved in the monetary problem."

## ITALY'S KING AND PREMIER GREET EGYPT'S RULER

[Chicago Tribune Press Service.]  
ROME, Aug. 2.—King Victor Emmanuel, Premier Benito Mussolini, the cabinet ministers and huge crowds welcomed King Fuad of Egypt, when he arrived in Rome today for a five-day official visit. While it is said officially the visit is purely a matter of international courtesy, the Egyptian correspondent is informed important political and economic matters will be discussed.

Independent Egypt bounds the Italian Libyan colony, which King Fuad's ambition to advance Egypt involves a huge program of development of the natural resources with Italian technical assistance and labor. It is expected cooperation between the two countries by King Fuad and his ministers and Premier Mussolini.

The Egyptian royal yacht, now at Civitavecchia, is expected to leave soon for Alexandria to bring Egypt's queen to Italy, as King Fuad is expected to remain in Italy for some time after his official visit.

in pansy pattern. Ruffles  
are edged in color to  
match the flower. Double  
ruffled valance completes  
the set.

Decorative  
Rayon and Cotton  
Drapery  
Damasks  
\$2.35

The high sheen  
gives an added richness  
to the designs and colors  
in a great variety of interesting  
combinations. This  
collection is specially  
priced at \$2.35 yard.

Filet and  
Flower Designs in  
Lace Panels  
\$3 Each

With scalloped and  
straight bottoms, all  
finished with a deep  
bullion fringe. These  
panels in attractive  
filet and allover flower  
designs unusually  
priced for the August  
sales at \$3 each.  
Sixth Floor, North, State St.

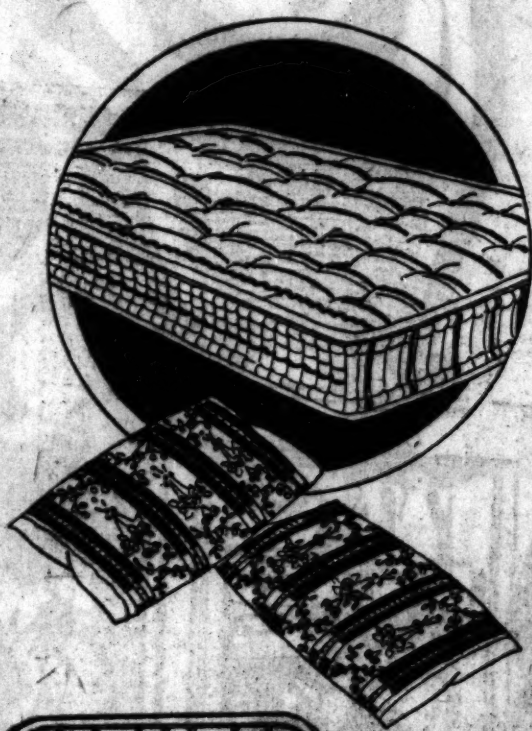

Room-Size  
Oriental  
Rugs  
\$105

THE artistry of the  
Oriental weavers—  
their inherent knowl-  
edge of color blendings  
and purity of design,  
give a shimmering rich-  
ness to these rugs from  
Asia Minor.

Each Rug a Fine Specimen of Weave and Coloring

The wide range of color combinations and designs makes choice merely a matter of preference, but seldom are rugs of this type to be had at such remarkably low prices. The 9 x 12 ft. size, \$105; the 10 x 13-ft. size, \$115.

Ninth Floor, North, State St.

Steel Beds  
And Bedding

A New and Larger Section  
On the Seventh Floor,  
New Building

IN this spacious new section attractive  
displays add greatly in the selection for  
the individual requirements.

Steel Beds, \$15 to \$45

Fine in construction and finish—for  
these are sample beds—in the attractive  
enamel color combinations, and the walnut  
finish. In the full and twin size, prices vary  
with kind from \$15 to \$45.

Deep coil box springs with hardwood  
frames and roll edge, full size, \$27.50; twin  
size, \$26.

Cotton Felt Mattresses, \$15

Elastic cotton felt, built layer upon  
layer, make these luxuriously soft. Hand  
made with four row roll edge, in the 50 lb.  
weight. Full size, \$15; twin size, \$14.

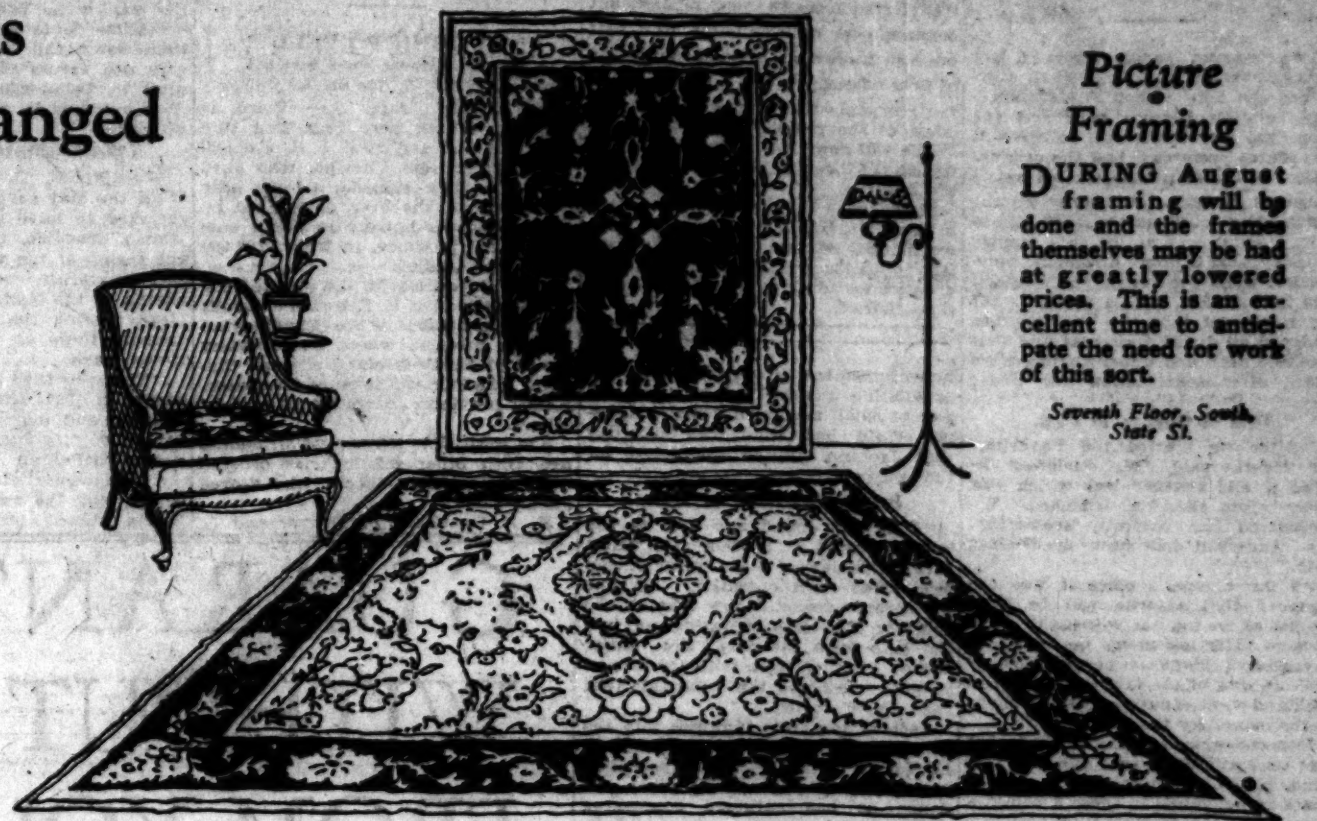

Pillows, feather filled, 21 x 27 inches,  
6 1/2 lb. pair, \$6.

Seventh Floor, Wabash Ave.

Picture  
Framing

DURING August  
framing will be  
done and the frames  
themselves may be had  
at greatly lowered  
prices. This is an ex-  
cellent time to antici-  
pate the need for work  
of this sort.

Seventh Floor, South,  
State St.

## The Lamps—

In Their New and Larger Section  
State St. Building, Seventh Floor, South

In the new appointments and arrangement of  
the lamps, there comes an added advantage, for  
here are greater groups, more variety, much larger  
scope for individuality in choice.

French Bronze Table Lamps, \$27.50  
Complete With Parchment Shades

A graceful figurine in bronze is mounted on a  
marble base. The etchings applied on the shades  
are either colored or black and white.

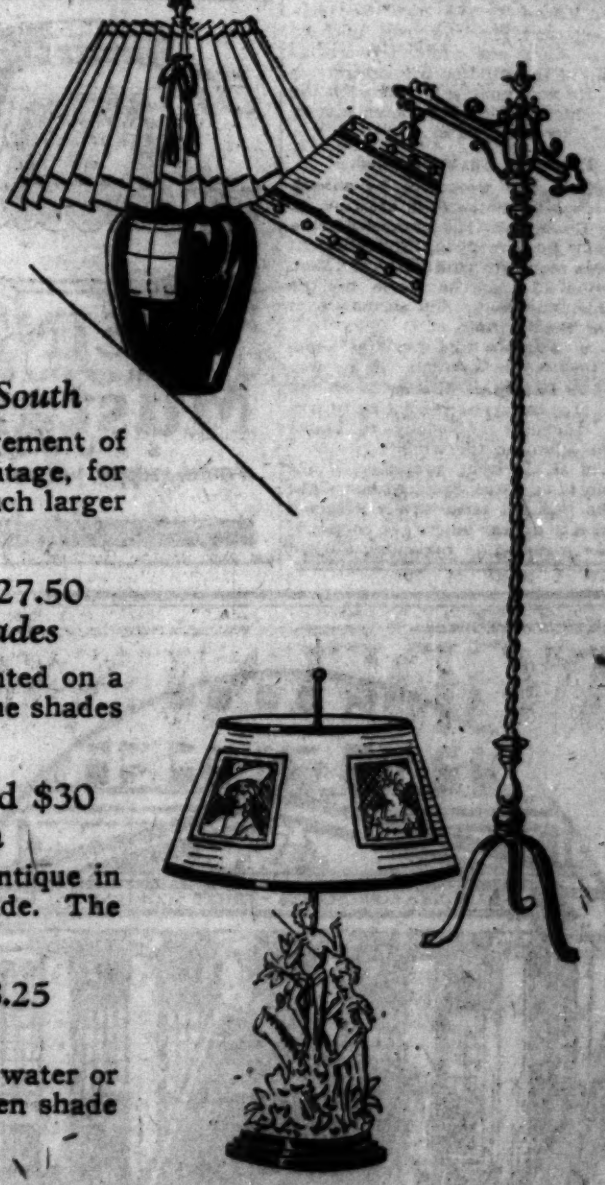

Bridge or Junior Lamps, \$25 and \$30  
After the Spanish in Design

The sturdy wrought iron standard, antique in  
finish, is completed with a parchment shade. The  
bridge lamp, \$25. The junior lamp, \$30.

Water Bottle Table Lamps, \$8.25  
With Pleated Linen Shades

Heavy crystal glass in which colored water or  
pure white water may be used. The linen shade  
comes from abroad.

Seventh Floor, South, State St.

## New Pieces in Unfinished Furniture

In the Housewares Section  
Ready to be Painted

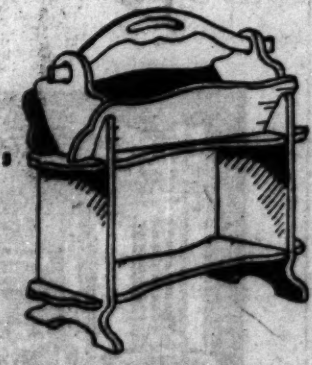

THERE are end tables, pier bookcases,  
servers, drop leaf tables, tilt top tables,  
corner brackets, hanging shelves, magazine  
stands, waste baskets, stationery holders.

\$1 to \$16.25

According to the Piece

There will be a demonstration in the use of  
this lacquer in this section all day Wednesday.  
The lacquer is priced from 40c for the one  
quarter pint to \$1.95 per quart.

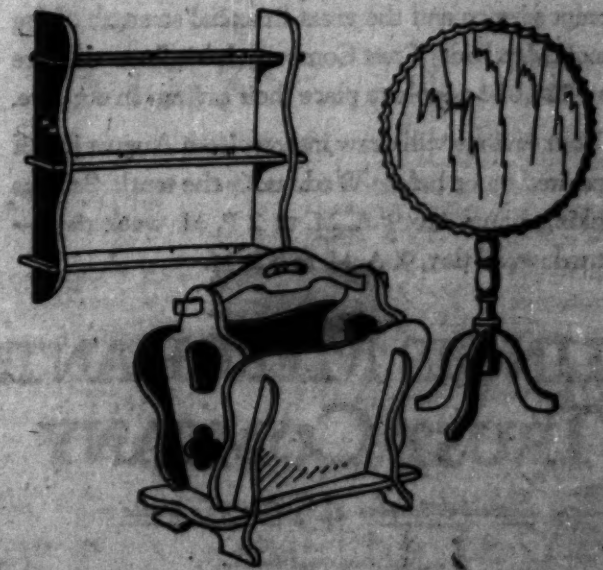

Sixth Floor, South, State St.

The Greater  
Hoover  
\$59.50

Especially at this  
time of the year is  
the Hoover appreci-  
ated for its efficient  
and quick dispatch  
of housekeeping  
tasks. A demon-  
stration in your  
home will be ar-  
ranged, if desired.

Sixth Floor, South.

## 27 LAKE DEATHS LAID TO CHANGE IN BOAT DESIGN

New Witness to Tell of  
Added Upper Deck.

Twenty-seven people drowned last Thursday when a sudden squall overturned the lake launch Favorite midway between Lincoln park and the Municipal pier might still be alive, it was stated yesterday, had the original design of the ship been carried out.

August Maerke, bookkeeper for the North Branch shipyard, 1890 Kingsbury avenue, was acting in a similar capacity for Gilbert Anderson, shipbuilder, when the keel of the Favorite was laid in 1914. He is authority for the statement that the Favorite was designed as a one deck boat and that a second deck and upper awning were added after construction was under way.

### Tells of Change in Plan.

"After we started the Favorite," Mr. Maerke said, "Mr. Anderson decided to add another deck which was done before she was launched. We considered her perfectly seaworthy. Mr. Anderson has been dead since 1919."

At the coroner's office it was announced that Maerke will be summoned as an inquest witness this afternoon. His testimony in regard to the altered plans is pertinent, it is said, in view of the fact that the extra deck and awning have received a share of the blame for the disaster.

Experts explain that after the boat was once tipped to one side that the wind, blowing against the upper deck and awning, found in these a continuous sail fifteen feet high for the vessel's length. The more the ship heeled in the blow the less chance she had of righting herself, it was stated.

Capt. Olson of the Favorite testified yesterday that he tried to head into the blow but couldn't overcome the pull of the wind on the superstructure. He was unable to ride with the wind, which would have blown him on to a nearby breakwater.

### Pastor to Be Summoned.

Another man who will be subpoenaed, it was announced, is the Rev. R. Keene Ryan. The six members of the coroner's jury, made up of prominent business men, are said to have taken exception to remarks made by the minister Monday in his sermon over four of the victims.

"It is easy to forecast this coroner's jury," the Rev. Mr. Ryan was quoted as saying. "It will be the same old stereotyped verdict as in previous tragedies. 'Nobody to blame but the lake and the wind.'"

David H. Jackson, president of the Lincoln park board, declared last night that he had not received an expected subpoena to appear before the coroner's jury for questioning regarding alleged

## LOWMAN SHAKES UP STAFF; YELLOWLEY'S WORK SATISFACTORY

Washington, D. C., Aug. 2.—[Special.]—Another shift in prohibition enforcement machinery was announced today by Seymour Lowman, assistant secretary of the treasury, who was sworn in yesterday to succeed Lincoln C. Andrews, former prohibition czar. Positions of five zone supervisors were abolished. Maj. H. H. White was transferred from the post of assistant commissioner of prohibition to a new position known as general supervisor of field offices. Having just completed the reorganization of the Washington office of the prohibition bureau, Maj. White will now undertake the reorganization of branch offices throughout the country.

Shakeups in some of the districts are in prospect, but it is understood that prohibition officials are entirely satisfied with the work of E. C. Yellowley, prohibition administrator in the Chicago district.

nonenforcement of a park regulation prohibiting the docking at the park pier of small excursion vessels. Coroner Wolff had been summoned for that purpose.

Denies Existence of Rule. "I haven't found any rule in the last six years," Mr. Jackson said, "that bars single decked boats under fifteen tons gross from operation. Perhaps the coroner doesn't know that all the boats in this class operating out into the lake from the park are single deckers. One of them with thirty passengers weathered the same gale that sank the Favorite."

Federal and state inquiries into the disaster were merged when Dickerson N. Hoover of the steamboat inspection service agreed to present what evidence he has gathered concerning faulty lifebelts to the coroner's jury. Testimony of his inspectors will be heard today.

## SEEK WORD OF CHICAGOANS IN CHINESE QUAKE

Devastated Province Cut  
Off from World.

BY JOHN POWELL.

[Copyright: 1927. By The Chicago Tribune.]

SHANGHAI, Aug. 2.—Word is eagerly awaited here regarding the safety of Mr. and Mrs. J. S. Fiddler, missionaries from Chicago, who have been located in Ningxia, a town near the center of the area devastated by the terrific earthquake in north central Kansu province, in which 100,000 are reported killed.

Other Americans in the affected district include Miss E. Petersen of South Dakota, a member of the Scandinavian Alliance mission, whose headquarters are at 44 North Ashland avenue, Chicago. She is in the town of Chanyuan, Kansu province, in charge of a girls' school.

She refused to leave several months ago with other missionaries ordered out by consular officers who feared bandit raids.

F. A. Gustafson of Denver and L.

P. Rand of Brooklyn, who is head of the hospital at Lanchowfu, Kansu province, also are in the quake zone, as are Mr. and Mrs. Belcher of Scotland and Mrs. O. P. Nystrom of Sweden.

Quake Destroys Telegraph Line.

The quake occurred last May 23, but, owing to destruction of the telegraph and absence of railways to central Asia details are just beginning to reach Shanghai.

The German Catholic mission here has heard from its members in the zone that the quake was one of the most disastrous of all time.

The missions here are practically helpless to send relief, owing to the shortage of funds and the fact that it requires practically eight weeks to reach the affected district. During the war in the Yangtze area the only accessible route lies through Peking, then down the Peking-Hankow railway and across the branch line running to Talyuenfu, Shanai province, then overland by mule cart to Kansu province.

600,000 Killed There in 1920.

Washington, D. C., Aug. 2.—[AP.]—With the May earthquake, which was reported to have taken 100,000 lives, Kansu province, China, has become the region of the world's most devastating quakes, says a descriptive sketch by the National Geographic society, placing the toll of two major tremors there at 700,000 lives. The sketch says:

"The province was visited by a quake in 1920, which laid waste the country and took 600,000 lives. The center of this quake was 200 miles nearer to Peking."

"Lanchow, with a population of 75,000, was the most important town in the affected section."

## EAGLES FINED \$9,000 AS DRY LAW VIOLATORS

Davenport, Ia., Aug. 2.—[AP.]—The United States government is richest by \$9,000 and the Davenport Eagles and Northwest Davenport Turners are poorer by that sum as the result of fines imposed late today by Judge Martin J. Wade in federal court for violation of the federal prohibition laws by these two fraternal orders.

The Eagles were fined \$9,000 and the Turners \$5,000. They also drew a set of permanent injunctions against the use of their lodge halls for other than strictly legal purposes, the bond in each case being set at \$1,000.

## "Fed up" on ordinary Cereals?

THE finest thing you can do for yourself and yours at breakfast is to provide a change in menu. Appetites grow stale and people weary of eating the same old "seven and six" breakfast.

Try Quaker Puffed Wheat. It's different in every way from any other cereal known—whole wheat steam exploded to 8 times natural size, then oven crisped to rare deliciousness. Tastes like toasted nutmeats.

get Approximately 20% is bran but you would never guess it. Children love it like a confection. For the Great Adventure of a change, get a package at any grocery store—just try it.

## Quaker Puffed Wheat

The "something different" you crave

## GUARANTEED TO SERVE WITHOUT ANY ATTENTION FROM YOU

## Refrigeration Salon

Before you buy any refrigerator, you owe it to yourself to investigate the new General Electric. See it today in the beautiful new R. Cooper, Jr. Inc. Refrigeration Salon at 824 Tower Court.

## NOTHING TO WATCH—REPLACE REMEMBER OR REGULATE

The new General Electric Refrigerator incorporates the most advanced features of refrigerator design. It offers every advantage essential to economical and dependable operation. It is the first completely self-contained refrigerator the world has ever known. The General Electric Company rests its entire reputation on this achievement, and guarantees unreservedly that it will serve continuously without supervision or attention of any kind. Booklet on request.

## REDS TRAMPLE ROBINS TWICE, 3 TO 1 AND 5 TO 4

### Recapture Fifth Place by Double Victory.

Cincinnati, O., Aug. 3.—(AP)—Cincinnati recovered fifth place in the National league from Brooklyn today with a double victory over the Robins, 3 to 1 and 5 to 4. McWeeny and May both allowed only seven hits in the first tray, but the former was hand-capped by errors. Luque went to Kolp's rescue with the tying run on base in the seventh of the closing struggle and stopped Brooklyn. Scores:

#### After a steady to 10c lower opening

in hogs yesterday, prices broke 10c to 15c, with medium and weight stock selling to the poorest advantage. Receipts at \$14.60 were 5,000 above the advance estimate released Monday, being augmented by 14,000 carried over from initial day of the week.

An advance estimate of 2,000 hogs for today proved a depressing factor. About 11,000 remained at the close. General average price was forced down 1c to \$14.50, with extreme top showing a 10c drop at \$14.60, bringing the spread between the two prices to \$1.10, a new wide point, against only 80c less than two months ago. Most 10,000 lb. averages brought \$14.60, with 10,000 lb. averages brought \$14.60, with 10,000 lb. averages brought \$14.60.

Prime weights were established a new top for the year at \$14.60, despite a reported slow movement of heavy carcasses on the dressed meat trade caused by Jewish holidays. Steers averaging 1,750 lbs. went to the eastern point at the top. Nearly 200 head averaging 1,200 lb. reached the \$14.00 line, with 10 yearlings averaging 1,000 lb. also at this price. Mixed yearlings, steers and heifers averaging 900 lb. brought \$13.10. Bulk of beef cattle brought \$12.50 to \$13.50, against \$12.50 the previous Tuesday and \$14.00 a year ago. Butcher stock held steady, heifers averaging 715 lb. at \$12.75. Calves regained Monday's 50c loss, bringing selected weaners up to \$12.00 again. Stockers and feeders met fairly active demand at steady prices.

Lamb Slump Sharply.

A break of 15c to 10c in lambs carried the top below the \$14.00 line for the first time of the season. Best western range lambs dropped at \$13.75, against \$13.25 early in July and \$14.75 in June. Fancy natives sold up to \$14.40, bullocks at \$12.75 to \$13.00. Aged sheep in small supply held steady. Feeding lambs met slow demand at weak prices.

Receipts at Chicago for today are estimated at 10,000 cattle, 20,000 hogs and 15,000 sheep, against 12,815 cattle, 21,011 hogs and 12,700 sheep, the previous Wednesday and 10,484 cattle, 14,145 hogs and 16,441 sheep, a year ago.

Yesterday's Hay Purchases.

Hog purchases yesterday by Chicago packers, including direct, follow:

Armour & Co., 1,500; Miller & Hart, 800.	
Swift & Co., 1,500; Independent P. Co., 1,000.

## YOU AND YOUR CHILDREN

Beings of Another World.

Has this ever happened to you? One summer day when my boy was about 4 years old a little neighbor came on our porch to play for the first time. We were camping and I had to be in and out around the children, as, like a good camper, I carried the big army blankets and filled up the wood basket.

Well, for the first half hour of that visit the little neighbor—well call him Richie—didn't say a word, or take up an engine, or discuss headlights or cowcatchers without first glancing quickly at me—evidently expecting me to be listening or watching.

After a while the thing got on my nerves. I thought, "Here, this won't do." So I proceeded to withdraw myself—in the spirit. Never did you see such an oblivious woman as I became that morning. My head was in the clouds, my eyes in the tree tops—and I feel sure the unawareness of my expression must have been a masterpiece.

Because before the morning was over our porch had become a railroad yard, we had a perfectly characterized conductor and engineer, and I had no idea of what was going on.

over our porch had become a railroad yard, we had a perfectly characterized conductor and engineer, and I had no idea of what was going on.

that feeling about grown people. It is as though adults were beings of another world before whom they could not be natural. They are hampered by a feeling that outsiders are in the room who are watching them from an other plane.

It is interesting to note how differently children from different homes play in the company of grownups. Some are always ill at ease—others are happy and free, feeling no alien spirit, conscious of the grown up now and then, and able at those times to ask them or tell them something without leaving their own familiar country of childhood to do it. It is not only interesting—it is revealing.

**Woman's Exchange Sale.** Mrs. Paul M. Walker, Mrs. Walter Fathorn, Mrs. Wilton B. Martin, Mrs. Albert J. Earling of Milwaukee, and Miss Grace Dixon will sponsor a sale of articles from the Woman's exchange of Chicago, to be held today at the Oconomowoc Lake club.

**Yacht Club Venetian Night.** Belmont harbor will present a festive scene on next Wednesday evening, when the Chicago Yacht club will sponsor a Venetian night, with prizes for the best decorated sail and power boats. A dinner dance will be given in connection with the affair.

**BAYER** Genuine  
**ASPIRIN**

## YOU AND YOUR CHILDREN

MacStays  
Lundington  
Borans

## Beings of Another World.

Has this ever happened to you? One summer day when my boy was about 4 years old a little neighbor came on our porch to play for the first time. We were camping and I had to be in and out and around the children, as, like a good camper, I filled up the wood basket.

Well, for the first half hour of that visit the little neighbor—we'll call him Richie—didn't say a word, or take up an engine, or discuss headlights or covecatchers without first glancing quickly at me—evidently expecting me to be listening or watching.

After a while the thing got on my nerves. I thought, "Here, this won't do." So I proceeded to withdraw myself in the spirit. Never did you see such an oblivious woman as I became that morning. My head was in the clouds, my eyes in the tree tops—and I feel sure the untransmuted of my expression must have been a masterpiece. Because before the morning was over our porch had become a railroad yard, we had a perfectly characterized conductor and engineer, and I had so far receded from Richie's consciousness as a Watching Grown Up and returned in proper guise, that he asked me to be all the passengers on the train without a flicker of self-consciousness. It is too bad when children have

over our porch had become a railroad yard, we had a perfectly characterized conductor and engineer, and I had so far receded from Richie's consciousness as a Watching Grown Up and returned in proper guise, that he asked me to be all the passengers on the train without a flicker of self-consciousness. It is too bad when children have

that feeling about grown people. It is as though adults were beings of another world before whom they could not be natural. They are hampered by a feeling that outsiders are in the room who are watching them from an other plane.

It is interesting to notice how differently children from different homes play in the company of grownups. Some are always ill at ease—others are happy and free, feeling no alien spirit, conscious of the grown up now and then, and able at these times to ask them or tell them something without leaving their own familiar country of childhood to do it. It is not only interesting—it is revealing.

Woman's Exchange Sale. Mrs. Paul M. Walker, Mrs. Walter Faithorn, Mrs. Wilton B. Martin, Mrs. Albert J. Earling of Milwaukee, and Miss Grace Dixon will sponsor a sale of articles from the Woman's exchange of Chicago, to be held today at the Oconomowoc Lake club.

Yacht Club Venetian Night. Belmont harbor will present a festive scene on next Wednesday evening, when the Chicago Yacht club will sponsor a Venetian night, with prizes for the best decorated sail and power boats. A dinner dance will be given in connection with the affair.

**Genuine BAYER**

# ASPIRIN

SAY "BAYER ASPIRIN" and INSURE

Proved safe by millions and prescribed by physicians

Colds Headache Neuritis Lumbago  
Pain Neuralgia Toothache Rheumatism

**DOES NOT AFFECT THE HEART**

**Safe** Accept only "Bayer" Aspirin which contains proven dose. Handy "Bayer" boxes of 10 tablets. Also bottles of 24 and 100.

Aspirin is the trade mark of Bayer Manufacture of Monocristalline Aspirin.

## Cold Water Spray Best Little Thing For Saggings Neck

BY ANTOINETTE DONNELLY.

It is really too bad the water wasn't the fluid forbidden in the eighteenth amendment. Conceivably, the benefits to the nation of the bootleg industry were water bottled, sealed and delivered surreptitiously at so much a case. And very water the magic word which might have been in conversation with the marchioness of Oubliance described prohibition!

But it isn't! Being something you can get all you want of for nothing a glass, its market doesn't offer so promising consumption as it deserves.

The almost national failure of proper intestinal functioning is due in a large measure, we know, to the lack of fluids in our system. How many people honestly do consume five or six glasses of water a day? Comparatively few make a conscientious effort to drink the will to drink this quantity, which doctors agree to be the minimum need.

But it wasn't about water drinking I started out on, really, although reminder never goes amiss if it will only prove a conscience prod and set you to doing your duty by your system which will get even with you, by the way, if you don't do right by it.

But a correspondent tells me something of interest to women about water as a restorative to the drooping neck-line. A woman's experience has shown her that no woman need look her years "by the neck" if she can afford to buy a bath spray, which she points out, costs little more than a box of cream or powder.

Her neck was slipping, as we say, tragically one blue Monday in front of the mirror. An inspiration came to her to tone up the chin line with cold water running freely from her spray. Every morning and night for 30 days she has done it and promises herself to keep it up for the rest of her life. No skilled movements with the spray are needed. Just see that the water (cold) plays steadily for three minutes against the sagging flesh.

"It didn't need the year to convince me," she explains. "I could tell at the end of a month I had been something that, long standing, might make a fortune for me."

There's no harm, by the way, in letting the spray work its magic on the face when you are at it. What a good idea, saving you a good deal for the allow check.

Any time any one else feels like passing along a good beauty tip, my feelings will be very much gratified. On the contrary, I shall be the little welcoming mayor and give you the keys to anything you want in my country of lotions, exercises, diets, etc.

## BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.

F.O.C. A SIMPLE COUNTER, THE, is an enlargement of the thyroid gland, can usually be cured without an operation. It is quite possible in your case that the enlargement will disappear.

C. E. L. STOCKINGS SHOULD not be worn a second time without washing, and should be washed shortly after removing, as the soil from perspiration and the heat from the body lining are hard on them. It is well to dry them indoors away from the sun or strong daylight to avoid fading.

## Bright Sayings of the Children

The Tribune will pay \$5 for each child's bright saying. The story told must have been printed in our newspaper or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address: Bright Sayings, Attention: The Tribune, Chicago.

One evening Jimmie and daddy were playing that Jimmie was a salesman. After he was supposed to have received the money for the purchase, his daddy said: "Well, now I get a lot, too. Why, daddy?" said Jimmie in disgust. "You know men don't kiss men."

Jean and Bobbie knew that when their mother went downtown shopping, she didn't like to take them along.

Yesterday, while she was dressing to go, Jean asked seriously: "Mother, why can't you leave one of us at home and take me?"

## PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

WOMAN'S AND MISSES DRESS

Here is an attractive sleeveless dress, suitable for the smart matron as well as for a girl. It is fashioned of black silk crepe, printed in tiny sprays of red flowers, with applied bands of matching red georgette crepe. Shell pink shantung, Nile green linen, self-trimmed, printed georgette crepe, printed voile and striped silk broadcloth are also suitable materials. The pattern, 3127, comes in sizes 16 and 18 years and 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards of 40 inch material with 3/4 yard of 32 inch contrasting.

Order Blank for Clotilde Patterns.

CLOTILDE PATTERNS, 347 PARK AVE., NEW YORK CITY.

Indicate the size you want and the Clotilde pattern you desire below:

Pattern number. Size. Price.

Name. Address.

City. State.

How to Order Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of pattern as you want. Enclose 10 cents in stamps or coin (coin preferred). Wrap it carefully for the number, and address your order to Clotilde Patterns, Chicago Tribune, 347 Park Avenue, New York City.

Note—Clotilde patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE. They are perfect in fit, up to date in style, and the easiest of all patterns to use.
